

## **CUSTOM IFRS/GAPSME COURSES**

Reporting faithfully in line with the requirements of the accounting framework applicable for your entity is challenging, especially in times of change such as these.

Financial instruments is a potentially complex area for your entity. The advent of IFRS 9 has brought about important changes in this respect, for instance in relation to impairment of debt instruments that are within the scope of the impairment model.

Our training courses on impairment offer a great degree of flexibility in terms of the number of participants, the duration, the venue and more. All courses are CPE-accredited\* and trainers are ACCA and ACA financial reporting lecturers.

Contact us to discuss our training services and your training needs to help you build the knowledge and skills needed to meet your organizations specific training goals objectives.
